Hi, Chuck -

Hopefully by now most of the 'excitement' has receded from Hurricane Harvey, you feel somewhat situated in your still-new home location, and life is settling down.

I am hoping this might me a good time to check to see if you are still planning to send a bit of your history for me to enter into *Blackledge Stories*.

I also wanted to emphasize that this doesn't have to be anything about the Blackledge family, despite the title - it may be anything you want to write about - your life, your opinions, whatever. Maybe some old photos (see other side).

I know you want to be a contributor to *Blackledge Stories*, and I appreciate that. What I want most from you are a few memories from your talks with ADB, perhaps a war story or two, some summary of your athletic and business achievements and struggles, and any other events or memories you would like to share.

Thanks so much for being willing to do this. I look at this book as capturing some Legacy. You might consider it as a process to preserve some precious memories forever!

- With Hope and Affection,
